Everything is Energy Show Topics for Episode #509 12/03/15:

- All discussions of energetic imbalances *reference certain frequencies an imbalance may be similar to. A frequency is NOT the actual disease.*
- Newly revealed Hereditary imbalances added to the AIM database.
- In his determination to find all of the devious Hereditary imbalances that participants have, Stephen can never make the statement that he will never be fooled again, but he can make the statement that he will never be fooled in the same way again.
- Discussed the fact that most new participants likely have hundreds of Hereditary imbalances, how imbalances "layer", and how people may not feel significant or lasting relief until they detox the deepest layer of imbalances hidden within them.
- When we discuss an imbalance added to AIM that is acquired, versus Hereditary, this means that should any AIM participant acquire this same imbalance, they will have immediate access to the balancing energies to self-heal the imbalance. The expectation is that the imbalance will be of less and shorter impact than it was in the person in whom the acquired imbalance was revealed.
- Hereditary imbalances that we discuss are NOT present in everyone. It's been years since a frequency has been revealed that appeared to be present in everyone. And again, Stephen still says no one has as many Hereditary imbalances as he had!
- The significance and impact of imbalances varies from person to person, so don't attempt to compare

yourself to someone else.

Here is the update on past frequencies that were revealed and added to the AIM Program last week:

8841, 8851, 8812, 8822 & 8832 We believe have balanced in all those AIM Participants who were clearing them.

Regarding the frequencies that have cleared, we clarify: "We cannot say with certainty or accuracy that they have cleared in all, because we cannot check all. Additionally, some heal more slowly because of underlying energetic weakness, such as the frequency of parasites."

REMINDER: Although the frequencies have balanced in those who are positive for them, we may have to allow our physical being to strengthen to notice the positive effects.

Jane from California

As someone with a lifelong pursuit of information on alternative methods of healing, I first learned of the AIM Program in Kevin Trudeau's book "Natural Cures "They" Don't Want You To Know About". That led me to read "Sanctuary", and the description of Stephen Lewis' views on energetic balancing made immediate and intuitive sense to me.

This was in the fall of 2008, when my elderly and beloved mother had just been through heart surgery and was in a profound weakened state. I decided to put my immediate family on the AIM Program before I even finished reading "Sanctuary".

Over the last 4 years, I have seen what I believe is direct evidence of the power of this self-healing technology. I studied the works and philosophy of Royal Rife and believe the AIM Program is the most advanced form of vibration therapy available today. The evidence surrounds me everyday of the continuously improving health and well-being of my family members who are on this program.

At 80, my mother has fully recovered from the heart surgery she underwent 4 years ago. Born with a heart defect that caused asymmetrical development, her doctors are amazed that her heart has not only fully healed, but is now stronger and more balanced. My father, at 86 is still running a real estate business and is not showing any signs of retiring.

My cousin has suffered a battle with weight for the last 25 years, which has affected her self-esteem. She has now lost 30 lbs. And weaned herself off anti-depressants in the few years since being on the program. The weight has stayed off, she's thrilled to have her life back, and she feels it has everything to do with her self-healing with the AIM Program. My niece, who's in college, was accustomed to getting sick with every bug that goes around. Now, she gets sick much less often. She attributes her self-healing with the AIM Program and lives a healthier, more energetic life.

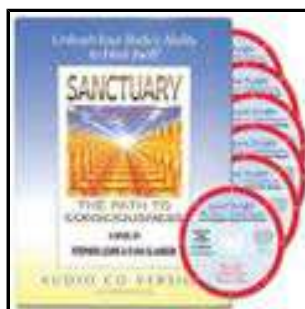

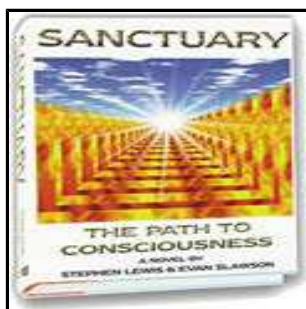

Multiple of these family members suffered from severe allergies, which they addressed for many years with shots and medications. My family has dramatically decreased the allergic reactions they used to constantly experience. They have virtually eliminated their need for the shots and pills they used to take frequently.

As for myself, my self-healing experience while on the AIM Program has convinced me of the positive impact on my well-being. For many years I suffered frequent outbreaks of cold sores around my mouth. After the first year on the program these outbreaks have completely disappeared. My overall health is excellent which I largely attribute to my ability to self-heal with the assistance of the cutting-edge technology of the AIM Program.

I see the AIM Program as a way to more fully access the power each of us has to heal ourselves. I believe it is an excellent form of lifelong health insurance and my personal experience for myself and whole family backs that up.
