Everything is Energy Show Topics for Episode #499 09/17/15:

- All discussions of energetic imbalances *reference certain frequencies an imbalance may be similar to. A frequency is NOT the actual disease.*
- Newly revealed Hereditary imbalances added to the AIM database.
- Hereditary frequencies, once self-healed, do not "come back". It may feel like something has "returned", but that's because a given issue has more than one frequency contributing to it. Frequencies layer or settle in your weak areas. You have to heal layer by layer.
- Stephen discussed the two databases in his QED: one of things known publicly and one of all of the "unknown" imbalances he's found through his decades of research and energetic evaluations.
- He stressed the importance of understanding what he means when he says a frequency is "similar to the frequency of".
- Discussed the wide variety of skin imbalances, including what can impact the scalp and hair loss, and how imbalances have different impacts in people.
- Discussed Diabetes Type I and Type II, energetically, and the variety of frequencies that can impact each. It always comes down to what frequencies have layered within the individual.
- All Stephen can do is provide balancing energies for every energetic imbalance he can identify in order to help each of us self-heal all imbalances we have.

**Newly Revealed Hereditary Frequency Update
As of September 17, 2015**

This week there were three new Hereditary frequencies revealed to us.

The first new Hereditary frequency 8714 was revealed to us and added to the AIM Program on September 14, 2015. This frequency is believed to function within the energetic orbs of the Sinuses, Lungs and Respiratory System or wherever it is in you if you have it.

It may manifest itself through the unresolved emotional etiologic frequency of: Disappointment.

The second new Hereditary frequency 8724 was revealed to us and added to the AIM Program on September 14, 2015. This frequency is believed to function within the energetic orbs of the Lungs, Respiratory System, Digestive Tract, Stomach, Muscles, Joints, Throat, Sinuses, Heart, Low Back and Hip Joints or wherever it is in you if you have it.

It may manifest itself through the unresolved emotional etiologic frequency of: Intolerance.

The third new Hereditary frequency 8734 was revealed to us and added to the AIM Program on September 15, 2015. This frequency is believed to function within the energetic orbs of the Lungs, Respiratory System, Digestive Tract, Stomach, Muscles and Joints or wherever it is in you if you have it.

It may manifest itself through the unresolved emotional etiologic frequency of: Impatience.

Here is the update on past frequencies that were revealed and added to the AIM Program last week:

8743 & 8753 We believe have balanced in all those AIM Participants who were clearing them.

8763 We believe will balance in all those AIM Participants who are clearing it by the end of this weekend.

Regarding the frequencies that have cleared, we clarify: "We cannot say with certainty or accuracy that they have cleared in all, because we cannot check all. Additionally, some heal more slowly because of underlying energetic weakness, such as the frequency of parasites."

REMINDER: Although the frequencies have balanced in those who are positive for them, we may have to allow our physical being to strengthen to notice the positive effects.

Phyllis from California

I had my first assessment with Stephen in 2007. I was amazed at the information he shared with me, through his process of using my photograph. I had read his book and was completely captivated by the story, and the discovery process of The AIM spiritual technology.

Since I have been on The AIM Program, I have experienced tremendous growth, prosperity and well-being

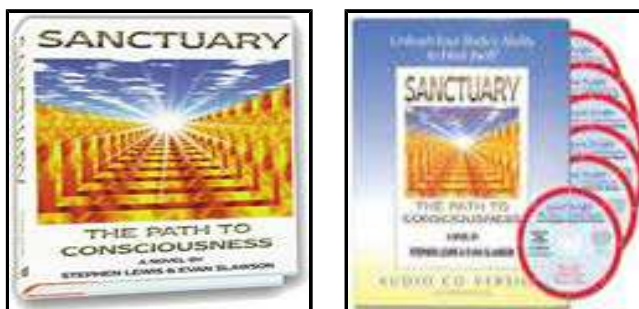

in many area of my life. Perhaps you can say it is coincidence. One thing stands out to me that does not resonate as a coincidence. I have struggled with an auto immune thyroid disorder for many years. I have a great physician who marries western and non-western treatments. Even so, my hormone levels would shift every four to six weeks, sometimes dramatically. My dosage of medication would have to be adjusted as well. It was not unusual for me to have a blood test every three weeks and see my doctor following that. This went on for nearly four years.

The exact month I started on The AIM Program, my hormone levels stabilized and my dosage of thyroid supplement remained the same as the previous month. It has been the same since the time I went on The AIM Program, which has now been one year. Now I visit my doctor every four months, rather than every four weeks. I cannot attribute this stabilization to anything other than The AIM Program. It is the only variable in my situation that changed. I will always be on The AIM Program. I have put my family on the program as well.

This technology is for now and for the future. We should all look at this uncovering of it as a blessing and an opportunity to cope more effectively with the dramatic changes in our world... and hence our bodies.
