## Events

### **Everything is Energy Show Topics for Episode #437 05/29/14:**

- Discussion of life force, frequency of immune deficiency and "weakest link".
- Newly revealed Hereditary imbalances added to the AIM database.
- Skin issues: any imbalance that impacts the orb of the kidneys can be experienced in the skin (known as the 3rd kidney in Oriental Medicine).
- Arthritis/thumb pain: many meridians pass through the base of the thumbs - lungs, large intestine, etc. - so there could be any number of things behind the pain. Both thumbs may or may not be impacted.
- Page 62 in Sanctuary: "...If my work lets you use your energy to fight your disease, it is you, not me, who succeeds or fails in that fight..."

## Newly Revealed Hereditary Frequency Update As of May 29, 2014

**This week there were five new Hereditary frequencies revealed to us.**

The first new Hereditary frequency 8038 was revealed to us and added to the AIM Program on May 27, 2014. This frequency is believed to function within the energetic orbs of the Lungs, Respiratory System and Lymph Glands.

It may manifest itself through the unresolved emotional etiologic frequency of: Insecurity.

The second new Hereditary frequency 8048 was revealed to us and added to the AIM Program on May 27, 2014. This frequency is believed to function within the energetic orbs of the Kidneys, Bladder, Muscles, Joints, Lungs and Respiratory System.

It may manifest itself through the unresolved emotional etiologic frequencies of: Depression.

The third new Hereditary frequency 8058 was revealed to us and added to the AIM Program on May 27, 2014. This frequency is believed to function within the energetic orbs of the Bloodstream, Circulatory System, Brain, Muscles, Joints and Heart.

It may manifest itself through the unresolved emotional etiologic frequencies of: Irritability.

The fourth new Hereditary frequency 8068 was revealed to us and added to the AIM Program on May 27, 2014. This frequency is believed to function within the energetic orbs of the Low Back, Hip Joints, Lungs and

Respiratory System.

It may manifest itself through the unresolved emotional etiologic frequencies of: Pain Behind Cheerfulness.

The fifth new Hereditary frequency 8111 was revealed to us and added to the AIM Program on May 29, 2014. This frequency is believed to function within the energetic orbs of the Bladder, Kidneys, Urinary Tract and Low Back.

It may manifest itself through the unresolved emotional etiologic frequencies of: Impatience.

**Here is the update on past frequencies that were revealed and added to the AIM Program last week:**

8067, 8018 & 8028 We believe have balanced in all those AIM Participants who were clearing them.

Regarding the frequencies that have cleared, we clarify: "We cannot say with certainty or accuracy that they have cleared in all, because we cannot check all. Additionally, some heal more slowly because of underlying energetic weakness, such as the frequency of parasites."

**REMINDER:** Although the frequencies have balanced in those who are positive for them, we may have to allow our physical being to strengthen to notice the positive effects.

### Karrol from Colorado

As I approach my one year anniversary on The AIM Program can't help but reflect back on my family's experiences during the past year. Like many of the other testimonials I read on your website, my health has definitely changed for the better. I used to get a cold at every season change and after many "sinus support" measures I was only getting two sinus infections a year. I was plagued by migraines every month and suffered with anxiety and depression that would come and go. I feel I still have a long way to go but the changes I have experienced this last year are very encouraging. I haven't had a cold in almost a year and only one sinus infection, and that was months ago. My migraines have reduced dramatically both in frequency and duration. I had a cyst on my left clavicle that I have had since my early thirties that would swell and shrink but never disappear. My mother had one just like it. It is gone.

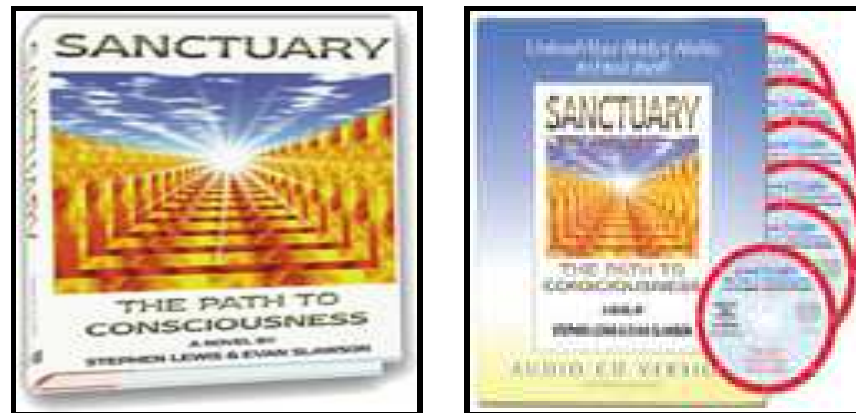

My middle son, Collin used to be on Adderall XR for Attention Deficit Disorder (ADD). We were having a hard time with him doing his school work and getting passing grades and his attention span was horrible. We even sent him to military school two years ago in a desperate attempt to help him learn self discipline. He flunked out and was sent home. Last September we took him off of Adderall and changed his diet and in October of 2005

he went on The AIM Program. He is now an "A" student. He is a junior in high school and wants to study alternative healing. He is learning Japanese and plans to spend some time studying in Japan during college. Noah, my youngest son was suffering from a compromised immune system after contracting what is known as "West Nile". He was ill constantly after that and seemed to pick up everything. He is doing much better physically though he seems to be experiencing pretty heavy emotional detox. He captured the A league goalie position in youth hockey and will be playing games in Aspen, Chicago and Toronto this year.

My oldest son has fought this tooth and nail but has experienced a profound change in his physical health. He suffered several times a year from sinus infections also. He Has not had one in several months. He is still suffering from depression but has been sleeping better recently. It is my hope that depression will be gone by the end of this next year on the program.
