Events

Everything is Energy Show Topics for Episode #440 06/19/14:

- Everything is a frequency in consciousness, and there are different kinds of consciousness, contrary to what Stephen previously thought about only people having consciousness; couple of examples: plants, cats and geckos.
- Most animals of all types beginning on AIM have life forces in the high 90's.
- Newly revealed Hereditary imbalances added to the AIM database.
- Outside of environmental influences, could what some participants perceive as allergies actually be the continuing self-healing of hereditary frequencies impacting the orb of the respiratory? Yes, that is entirely possible, and that includes frequencies similar in nature to the frequency of Strep Rheumaticus.
- Participants select balancing energies they need as they are ready for them, working though each layer to ultimately reach the deepest one. Some seem to get there within a year, others are still healing hereditary imbalances. It's a process unique to every individual participant.
- While the QED says nothing "unknown" is hidden behind the one frequency still showing as present in Stephen, he has a strong feeling there's another one to be revealed.
- Neale Donald Walsch's message on looking to your awareness, rather than your thoughts, as it does not betray you.

Newly Revealed Hereditary Frequency Update As of June 19, 2014

This week there were two new Hereditary frequencies revealed to us.

The first new Hereditary frequency 8122 was revealed to us and added to the AIM Program on June 16, 2014. This frequency is believed to function within the energetic orbs of the Lungs, Respiratory System, Heart, Muscles and Joints.

It may manifest itself through the unresolved emotional etiologic frequency of: Despondent.

The second new Hereditary frequency 8132 was revealed to us and added to the AIM Program on June 17, 2014. This frequency is believed to function within the energetic orbs of the Low Back and Hip Joints.

It may manifest itself through the unresolved emotional etiologic frequencies of: Nervousness.

Here is the update on past frequencies that were revealed and added to the AIM Program last week:

8141, 8151 & 8161 We believe have balanced in all those AIM Participants who were clearing them.

8112 We believe will balance in all those AIM Participants who are clearing it by the end of this weekend.

Regarding the frequencies that have cleared, we clarify: "We cannot say with certainty or accuracy that they have cleared in all, because we cannot check all. Additionally, some heal more slowly because of underlying energetic weakness, such as the frequency of parasites."

REMINDER: Although the frequencies have balanced in those who are positive for them, we may have to allow our physical being to strengthen to notice the positive effects.

[Click here for a more-detailed explanation of the Newly Revealed Hereditary Frequency Update](#)

For more information on the latest frequencies you can listen to the Everything is Energy Show every Thursday morning from 9-10 AM (Pacific). (See the listing in [Events](#).)

Janice from Florida

My house has been on The AIM Program for over 2 years now. Please convey my heartfelt THANKS to Stephen

and the other AIM founders for enabling my house to save itself - 2X recently!

We discovered bent metal around the doorframe on the sliding glass door leading into the master bathroom. No one was able to enter our home, however. I warned my neighbors about the attempt. Unfortunately, my next door neighbor neglected to convey the warning to her sitter, who took her 2 children to the movies without setting their house alarm. My neighbor's house was robbed extensively, the thieves gaining entrance to their house through their sliding glass door into their master bath (just like they attempted on our home)!

A few weeks later we had an electrical fire inside our home! There was electrical smelling, toxic visible smoke throughout the bedroom/bathroom areas of our house. We were unable to locate the source, so quickly call 911. Several fire trucks arrived (our electrician stated that he saw 6 when he arrived!). Firemen in full gear went throughout the house (including the attic) seeking the source of the smoke/fire and used infra red heat detectors seeking the source. After 45 minutes the smoke was diminishing. Since the Fire Department workers were unable to locate any source of heat, they left and said that this occasionally happened, where there was a fire that they were unable to locate the source of, and they could find no continuing danger. Later that evening we discovered what we now believe to have been the cause - our ceiling fan motor in the master bedroom. The copper coils were burned black from the heat and the motor was no longer functioning. Upon taking down the fan, we were amazed that the fire had not spread - there were golf ball sized clumps of dust surrounding the motor!! If they had caught fire, the entire house would have probably quickly become engulfed in flames - there is wood furniture, wallpaper and carpet in the master bedroom. The smoke smell in the bedroom area slowly dissipated over the course of the following 2 weeks. We replaced the ceiling fan last week.

I believe that my home was able to save itself somehow, since it is covered by the AIM frequencies! Please convey my thanks.

P.S. I am one of the participants who had been suffering from the loss of vision problem that Stephen mentioned on last weeks Talk Shoe. What a relief to know that he had balanced this worrisome frequency!
