Everything is Energy Show Topics for Episode #442 07/10/14:

- Increasing consciousness: Enhancing frequencies are volitional, but Stephen believes as we heal hereditary imbalances, consciousness increases, simply because what you bring with you dictates your consciousness. Once you heal all your hereditary imbalances, increasing your consciousness is then completely volitional.
- Newly revealed Hereditary imbalances added to the AIM database.
- Most are not ready to perceive that we create every aspect of our lives, including sickness or health.
- New to AIM and wondering how to interpret newly revealed frequency information? New or not, some things to remember: (1) Two people may have a given imbalance and perceive it, or the healing of it, in completely different ways or strengths. (2) You first select balancing energies to heal acquired and chronic imbalances. Then you move on to hereditary imbalances you have, based on priorities known by your higher consciousness, not dictated by AIM. There is no way of knowing what imbalances you have or when you select the balancing energies for each. (3) A given description of a newly revealed imbalance is commonly very similar to that of many, many other frequencies in the AIM database; nothing is as simple as having one imbalance contributing to it. (4) Imbalances your ancestors did not heal could be layered or accumulated in weak areas. However we may or may not know what all of our weak areas are until we get to certain imbalances.
- Stephen referenced a poem by Ralph Waldo Emerson, "Brahma". You can find it here: <http://www.poetryfoundation.org/poem/175138>.

It may manifest itself through the unresolved emotional etiologic frequency of: Hostility.

The second new Hereditary frequency 8114 was revealed to us and added to the AIM Program on July 7, 2014.

This frequency is believed to function within the energetic orbs of the Lungs, Respiratory System and Skin causing an itchy rash.

It may manifest itself through the unresolved emotional etiologic frequencies of: Depression.

The third new Hereditary frequency 8124 was revealed to us and added to the AIM Program on July 7, 2014.

This frequency is believed to function within the energetic orb of the Skin causing a rash.

It may manifest itself through the unresolved emotional etiologic frequencies of: Nervousness.

The fourth new Hereditary frequency 8134 was revealed to us and added to the AIM Program on July 8, 2014.

This frequency is believed to function within the energetic orbs of the Heart, Muscles, Joints, Throat, Sinuses, Lungs and Respiratory System.

It may manifest itself through the unresolved emotional etiologic frequencies of: Indecision.

The fifth new Hereditary frequency 8144 was revealed to us and added to the AIM Program on July 8, 2014. This frequency is believed to function within the energetic orbs of the Lungs, Respiratory System, Digestive Tract, Low Back, Hip Joints, Skin, Muscles, Joints, Spine and Brain.

It may manifest itself through the unresolved emotional etiologic frequencies of: Dissatisfaction.

The sixth new Hereditary frequency 8154 was revealed to us and added to the AIM Program on July 9, 2014.

This frequency is believed to function within the energetic orb of the Cartilage.

It may manifest itself through the unresolved emotional etiologic frequencies of: Fixations.

Here is the update on past frequencies that were revealed and added to the AIM Program last week:

8133, 8143 & 8153 We believe have balanced in all those AIM Participants who were clearing them.

Regarding the frequencies that have cleared, we clarify: "We cannot say with certainty or accuracy that they have cleared in all, because we cannot check all. Additionally, some heal more slowly because of underlying energetic weakness, such as the frequency of parasites."

REMINDER: Although the frequencies have balanced in those who are positive for them, we may have to allow

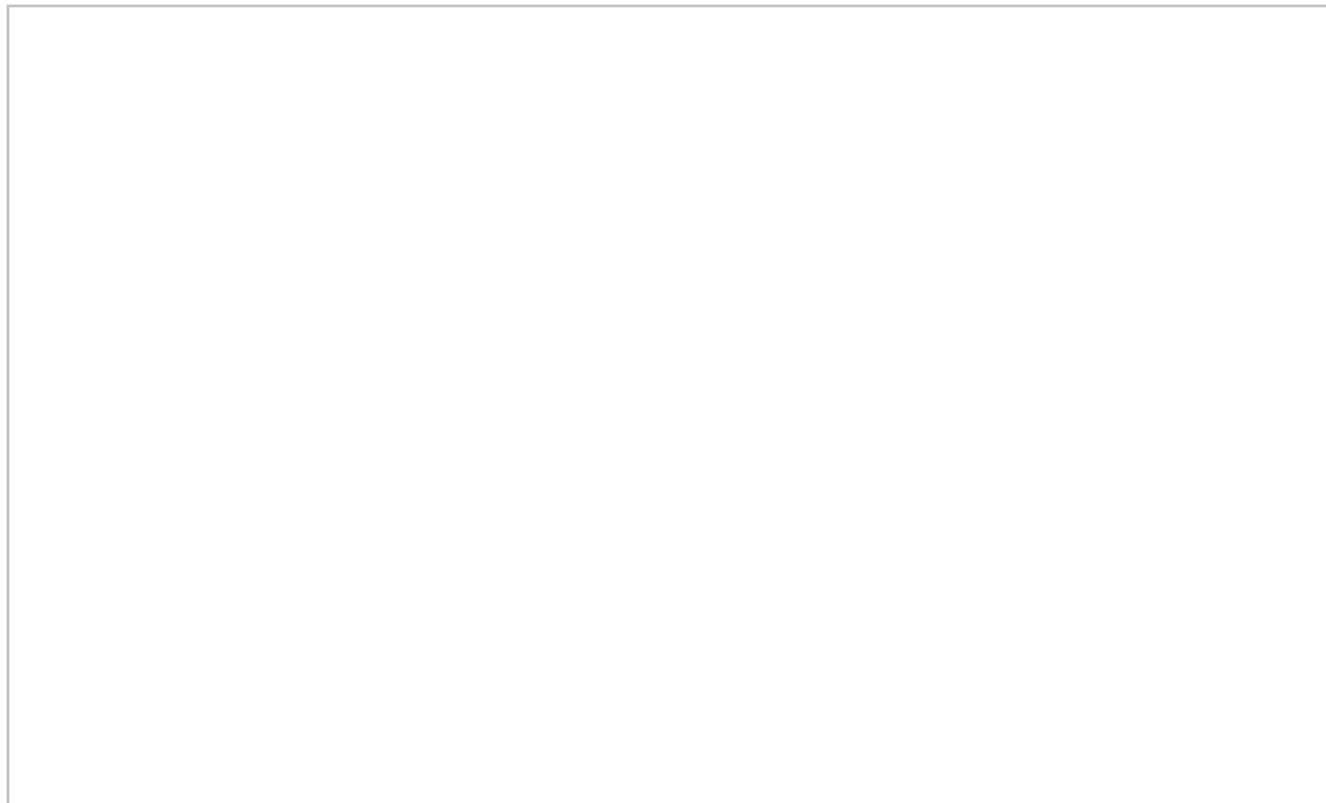

our physical being to strengthen to notice the positive effects.

Lily & Jethro from Kentucky

Our newest alpaca Jethro was born a healthy 19.4 pounds. He came through a rather difficult delivery, as this was Lily's first. He has wonderfully straight legs and a beautiful, soft fleece that looks like mink. Lily has been on the program since May 2004. This year, her third shearing, she yielded over 9 pounds of fiber... more beautiful

than previous years, with an impressive staple length of 5 inches... more than any other adult alpaca on the farm. (No other animals on the farm are on The AIM Program of self-healing through energetic balancing.) She is a fabulous milk producer... so much that we caught another baby in the pasture nursing from one side as ours nursed from the other!
