### ***Everything is Energy Show Topics for Episode #447 08/14/14:***

- Newly revealed Hereditary imbalances added to the AIM database.
- Most of these are similar in energetic nature to things commonly associated with aging.
- Related quote from Sanctuary, page 183: "There is no need to "go gentle into that good night," reconciling ourselves to the inevitability of aging and the loss of vitality. Traditional Eastern cultures pursued longevity - not from a fear of death which is inconsistent with a belief in reincarnation, but because they desired to maximize the time available to perfect themselves in this life and therefore allow themselves the opportunity to live their lives free from the burden of the unwanted baggage that they called karma..."
- Stephen's mentor, Max, felt there was only a "life instinct", that there was no "death instinct", but rather a "fear of life" in terms of everything life presents.
- We honor the life and genius of Robin Williams.
- Initial life force levels for new AIMers: people in poorer countries vs typical person in US; why it initially dropped in 2000; what it commonly is today and why.
- Life force scale to 100: still the scale that tells Stephen most of what he has to know in doing rechecks; participants reach 100 well before they have detoxed all their imbalances.
- The unknown: To what extent will any remaining imbalances impact one's well-being? Does having more imbalances provide a greater source of wisdom? Does it indicate an "old soul? And if so, is that a negative or positive state?

**Here is the update on past frequencies that were revealed and added to the AIM Program last week:**

8156, 8166 & 8117 We believe have balanced in all those AIM Participants who were clearing them.

Regarding the frequencies that have cleared, we clarify: "We cannot say with certainty or accuracy that they have cleared in all, because we cannot check all. Additionally, some heal more slowly because of underlying energetic weakness, such as the frequency of parasites."

**REMINDER:** Although the frequencies have balanced in those who are positive for them, we may have to allow our physical being to strengthen to notice the positive effects.

### Shamim from England

My first experiences of going on the AIM programme in 2003 included a clear, distinct feeling of having found my voice, relieved to no longer be a doormat to the world, a sense of closing the door to outside influences, finally allowing myself to be true to me.

I remember Stephen testing me a few times saying that he found me to be clearing frequencies of anger amongst others most of which had come through from my mother. Not surprisingly I had a tough time throughout my earlier years being "at war", having a "love - hate" relationship with my mother and feeling the need to attend endless workshops to try to resolve this.

Going on AIM and adding my mother to the programme helped to no end to heal this family chain of unresolved baggage for which I am so grateful. It took two years to clear my suppressed anger following which I found I could see and can be with my mother without this background friction. My mother herself once remarked that it has only taken her to get to the age of 75 to reach this point of peace and harmony with her daughter - better

late than never!

Inspired by observing these subtle yet dramatic changes I then felt it was important to share this by encouraging the rest of my family to go on AIM including my nephew and nieces. Of course I was horrified to see these youngsters, not even in their teens, show initial life force readings as low as 12 or 18 out of 100. When I now observe them next to their peers it is quite apparent by their mature behaviour and sense of wholeness that they are free of ancestral baggage with a life force of 100, living their life to their maximum potential and destiny what a precious gift to give to a child. Overall, placing the whole family on AIM has changed the family dynamics so much for the better.

The other direct experience of putting myself and my business / clinic on AIM was a noticeable shift in the dynamics at work. My clinic, Wholistic Medical Centre in London, has become increasingly successful since putting it on AIM. There has been recognizable synchronicity, specifically improved opportunities of meeting the right colleagues at the right time and place, most especially the ones that now make up the core of my clinical team. I now have all my staff on the AIM programme, which clearly helps to bring the best out of each other whilst we all have the opportunity to live and work from our best and true potential.

I recommend my patients to go on AIM, especially those who have cancer, when they need their self healing to be at its maximum and cannot afford not to be on AIM for this very reason. Of course my cancer patients are most receptive to this suggestion but ideally all my patients would clearly benefit from being on AIM as a basic starting point to their healing process and journey.

I liken going on AIM as having a roof top over your house which offers some basic protection without having to duck and dive every moment to protect oneself from the harsh external elements. Meanwhile, with the insurance of a roof top above, it also helps of course to maintain and keep the house clean and in good order, which is now easier to do without the distraction of constantly being on the lookout for the next storm, wind or rain.

In summary, the AIM programme does indeed do what it says it is capable of doing - namely to allow us to heal ourselves.
