Everything is Energy Show Topics for Episode #451 09/11/14:

- All discussions of energetic imbalances reference certain frequencies an imbalance may be similar to. A frequency is not the actual disease.
- Newly revealed Hereditary imbalances added to the AIM database.
- Many frequencies, both hereditary and acquired, can impact the energetic orb of the brain.
- When you deal with an acquired imbalance right away, it goes quickly.
- Regarding the recent virus impacting kids in the Midwest: Stephen identified a specific frequency and confirmed it was already in the AIM database.
- A weakness is likely to remain a "big deal" until you heal the last "big deal" imbalance in you.
- Another insight into identifying balancing energies for an imbalance, using the QED, is on page 65 of Jane's eval chapter in Sanctuary.
- Discussed some of the things that can trigger "EU or energetically uncertain" and how most people clear that and resume an "energetically certain" status.

It may manifest itself through the unresolved emotional etiologic frequency of: Discontentment.

The second new Hereditary frequency 8242 was revealed to us and added to the AIM Program on September 8, 2014. This frequency is believed to function within the energetic orbs of the Circulatory System, Skin causing an Itchy Rash, Muscles, Joints, Throat, Sinuses, Heart and Brain.

It may manifest itself through the unresolved emotional etiologic frequency of: Dissatisfaction.

The third new Hereditary frequency 8252 was revealed to us and added to the AIM Program on September 8, 2014. This frequency is believed to function within the energetic orbs of the Skin causing lumps, Muscles, Joints, Lungs and Respiratory System.

It may manifest itself through the unresolved emotional etiologic frequency of: Jealousy.

The fifth new Hereditary frequency 8213 was revealed to us and added to the AIM Program on September 11, 2014. This frequency is believed to function within the energetic orbs of the Bladder, Urinary Tract, Lungs, Respiratory System, Digestive Tract, Brain and Liver.

It may manifest itself through the unresolved emotional etiologic frequency of: Irritability.

The sixth new Hereditary frequency 8223 was revealed to us and added to the AIM Program on September 11, 2014. This frequency is believed to function within the energetic orbs of the Muscles, Joints, Throat, Sinuses, Heart, Brain, Lungs and Respiratory System.

It may manifest itself through the unresolved emotional etiologic frequency of: Intolerance.

Here is the update on past frequencies that were revealed and added to the AIM Program last week:

8251, 8261, 8212 & 8222 We believe have balanced in all those AIM Participants who were clearing them.

Regarding the frequencies that have cleared, we clarify: "We cannot say with certainty or accuracy that they have cleared in all, because we cannot check all. Additionally, some heal more slowly because of underlying energetic weakness, such as the frequency of parasites."

REMINDER: Although the frequencies have balanced in those who are positive for them, we may have to allow our physical being to strengthen to notice the positive effects.

Crystal from Louisiana

When I first joined the AIM Program in February of 2010, I wasn't quite sure what to expect. I enrolled everyone in my family, even my dog, but I was most hopeful that it could help my son self-heal his ADHD.

After about three months on the AIM Program I scheduled my annual eye exam, and was surprised to hear my eye doctor tell me that my right eye had improved! It had gone from a -4.25 to a -3.25. Before this, my vision had pretty much stayed the same for several years. Thinking back, I do remember some weird vibrations going on in my right eye for about a day or two, but didn't think too much about it.

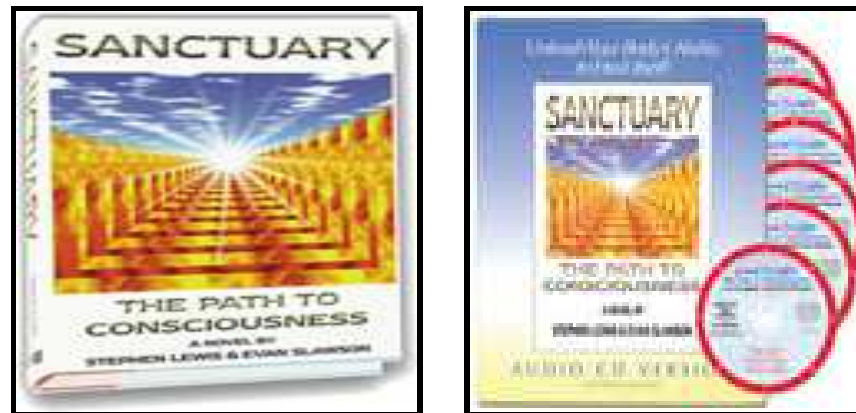

Fast forward another four months and I started to notice some changes in my son, who was diagnosed with ADHD at the age of 3. He's currently 7 and had been taking Vyvanse for his ADHD, and Abilify to try and increase his appetite (one of the side effects of the Vyvanse is loss of appetite). The changes I noticed were

him acting up even more on his medicine, showing signs of anger and just not happy in general. So I took him off his medicine, and low and behold ever since then he's been a different child! He can focus, has self-control, is MUCH happier, is more creative, etc. His father also noticed the difference once I took him off his medicine, along with his teacher and therapist. I am so grateful to have found the AIM Program, as it has helped my whole family self-heal.

One last thing, I also noticed that my dog no longer has allergies. The first time I realized she had allergies was when she was about 4 months old. Her eyes got really red and had some drainage. After taking her to the vets, they confirmed that she had allergies. She was put on the AIM Program when she was about one year old. Some time last year I saw my former husband's dog and noticed his eyes were all red and asked what happened, and he said that his dog has allergies. That's when I realized that I hadn't seen any allergy symptoms in my dog for quite awhile.
