Everything is Energy Show Topics for Episode #453 09/25/14:

- All discussions of energetic imbalances *reference certain frequencies an imbalance may be similar to. A frequency is NOT the actual disease.*
- Newly revealed Hereditary imbalances added to the AIM database.
- Stephen gets "hunches" or messages that may prompt him to check someone or something, which often results in finding a previously unknown imbalance.
- The term "layering" isn't in the index in Sanctuary, but page 141 describes how imbalances layer, areas of weakness and things that can impact the finding of previously unknown imbalances, including the participant.
- Multiple aspects of AIM help participants not look or feel their age; the goal is longevity with high levels of well-being.
- Frequencies similar to all types of Borrelia frequencies (6 so far this month) can be present almost anywhere, including the energetic orbs of skin, brain, kidneys and lungs.
- Everyone has a different "bottom of the barrel"; in general, the closer you get to it, the healthier and stronger you are.

Newly Revealed Hereditary Frequency Update As of September 25, 2014

This week there were five new Hereditary frequencies revealed to us.

The first new Hereditary frequency 8234 was revealed to us and added to the AIM Program on September 22, 2014. This frequency is believed to function within the energetic orbs of the Lymph Glands, Digestive Tract, Brain, Muscles and Joints.

It may manifest itself through the unresolved emotional etiologic frequency of: Judgemental.

The second new Hereditary frequency 8244 was revealed to us and added to the AIM Program on September 22, 2014. This frequency is believed to function within the energetic orbs of the Lungs, Respiratory System, Circulation, Bloodstream, Lungs and Respiratory System.

It may manifest itself through the unresolved emotional etiologic frequency of: Irritability.

The third new Hereditary frequency 8254 was revealed to us and added to the AIM Program on September 22, 2014. This frequency is believed to function within the energetic orbs of the Lungs, Respiratory System, Eyes

and Urinary Tract.

It may manifest itself through the unresolved emotional etiologic frequency of: Impatience.

The fourth new Hereditary frequency 8264 was revealed to us and added to the AIM Program on September 23, 2014. This frequency is believed to function within the energetic orbs of the Skin, Lungs and Respiratory System.

It may manifest itself through the unresolved emotional etiologic frequency of: Dissatisfaction.

The fifth new Hereditary frequency 8215 was revealed to us and added to the AIM Program on September 25, 2014. This frequency is believed to function within the energetic orb of the Skin.

It may manifest itself through the unresolved emotional etiologic frequency of: Withdrawal

Here is the update on past frequencies that were revealed and added to the AIM Program last week:

8233, 8243, 8253, 8263, 8214 & 8224 We believe have balanced in all those AIM Participants who were clearing them.

Regarding the frequencies that have cleared, we clarify: "We cannot say with certainty or accuracy that they have cleared in all, because we cannot check all. Additionally, some heal more slowly because of underlying energetic weakness, such as the frequency of parasites."

REMINDER: Although the frequencies have balanced in those who are positive for them, we may have to allow our physical being to strengthen to notice the positive effects.

Helen from Florida

My first night & day on the AIM Program I was buzzing all over with energy & well being. I had to make myself lie down after working 12 hours overnight and running errands all that morning. At that point I had been up for about 30 hours. My metabolism for the first 3 days was so high, I had to eat every 2 hours but when I weighed myself, I had lost 2 pounds. I have been an emotional eater for years but within days on the AIM program I have put my eating habits into perspective effortlessly.

The most fascinating thing is that nothing I do affects my energy level. In the past a full stomach made me feel lethargic for hours but now I can eat a heavy meal, work a 12 hour night shift & keep going as if I just came from a good night's rest. After 6 hours of sleep I find I cannot & do not need any more sleep.

I have practiced transcendental meditation for 15 years (more off than on) & Reiki group meditation, both of which have introduced me to a little piece of heaven on earth, feelings of joy & well being & made me realize what my life would be like if I was consistent daily. I was never consistent due to hectic schedules, forgetfulness

of how good it can feel, worries of life & plain laziness. The AIM Program in these 2 weeks has given me all these benefits, every second of every day without me having to even think about it.

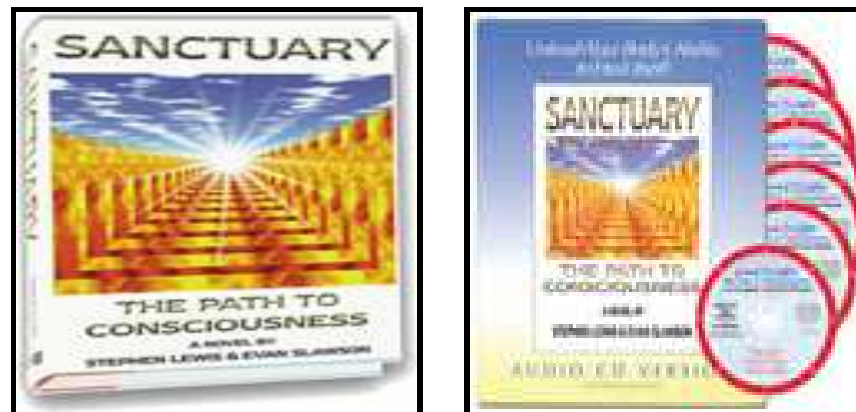

Initially I had planned to put my teenage son on the Program in 3 months but I cannot wait that long for him to feel the way I am feeling. I sent in his application yesterday. I am sharing with family, friends & acquaintances who are open minded.

I am wondering, if I can feel this good now, how will I feel in 11 months when my life force reaches 100?

God bless the founders & everybody at EMC² & the AIM Program for dedicating their lives & knowledge to share these with all of us.
