## Events

### **Everything is Energy Show Topics for Episode #460 11/13/14:**

- All discussions of energetic imbalances *reference certain frequencies an imbalance may be similar to. A frequency is NOT the actual disease.*
- Newly revealed Hereditary imbalances added to the AIM database.
- Many of these frequencies are similar to frequencies commonly associated with aging, but not necessarily observed in our ancestry; they were underneath what was known to cause their demise.
- These frequencies seem to be more common, fundamental imbalances in people on AIM who are still healing Hereditary imbalances.
- Life is energy, and energy is changed by consciousness, as is well-being and ill-being. The hope is that more people are awakening to this perspective.
- Discussion of biologic age: definition, how it relates to life force and how the "ideal biologic age" has dropped since 2009. Stephen will check the current biologic age of participants at different stages in their healing process and update us next week.

**Here is the update on past frequencies that were revealed and added to the AIM Program last week:**

8258, 8268, 8311 & 8321 We believe have balanced in all those AIM Participants who were clearing them.

Regarding the frequencies that have cleared, we clarify: "We cannot say with certainty or accuracy that they have cleared in all, because we cannot check all. Additionally, some heal more slowly because of underlying energetic weakness, such as the frequency of parasites."

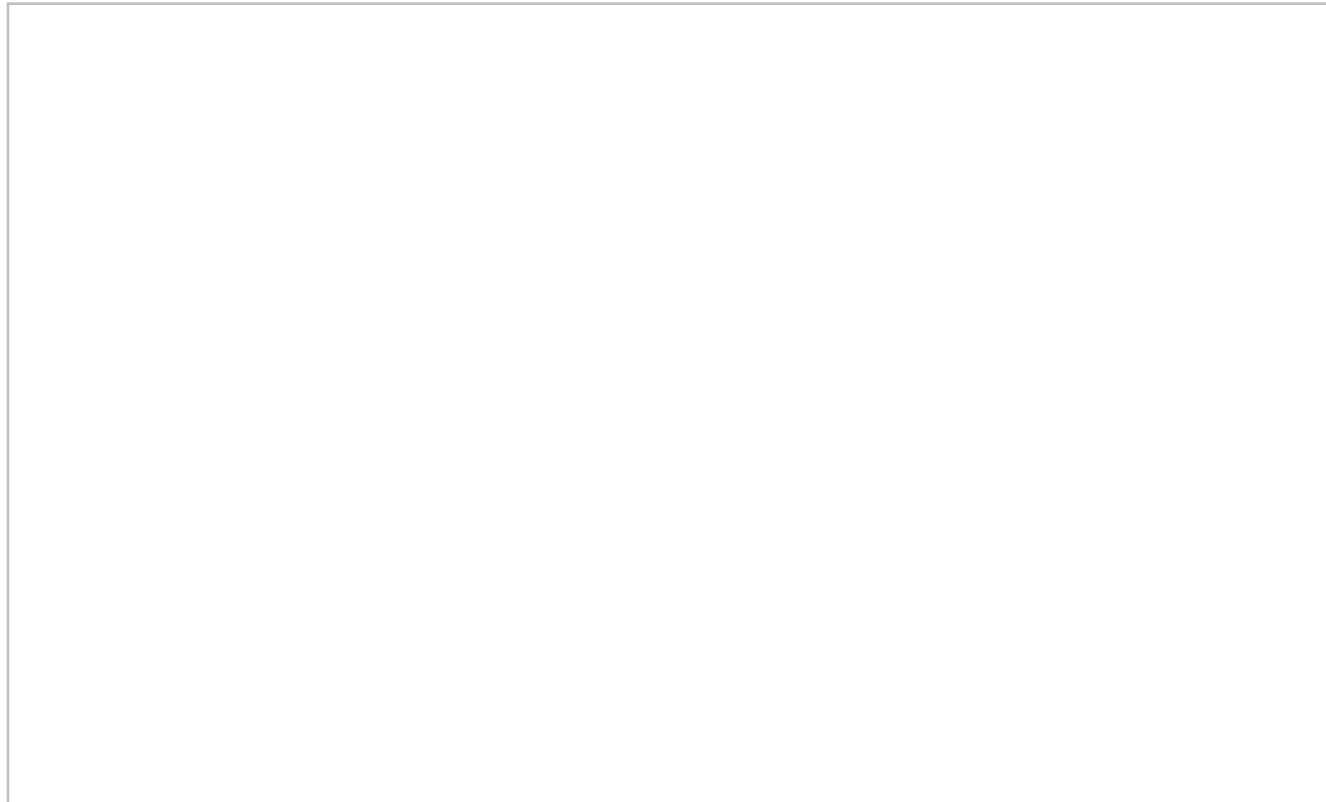

**REMINDER:** Although the frequencies have balanced in those who are positive for them, we may have to allow our physical being to strengthen to notice the positive effects.

### **Catherine from California**

I've had my family on The AIM Program since October 2005. We've had great results with self-healing. Sometimes it's hard to understand or accept something that's radically different from what we know or have been taught. So let me tell you about my Dad. Dad went to the Veteran's Clinic for his annual physical in September 2005. Every activity, no matter how small, was an effort for him. He had a hard time breathing and often felt dizzy. He would work in the garden for 10 minutes and then have to lie down for 30 minutes. He was losing weight and was down to about 105 pounds. He ate like a bird, just a spoonful of this and a spoonful of that. A biopsy was done on Dad's stomach and the results showed cancer. In October 2005 I started Dad and the rest of us on The AIM Program. In November we got the PET scan results. The cancer didn't show up on the images. We declined a recommended surgery because it would mean that a part of Dad's stomach would have been removed and he would have to "attain nutrients through a tube." At the follow-up the Doctor seemed

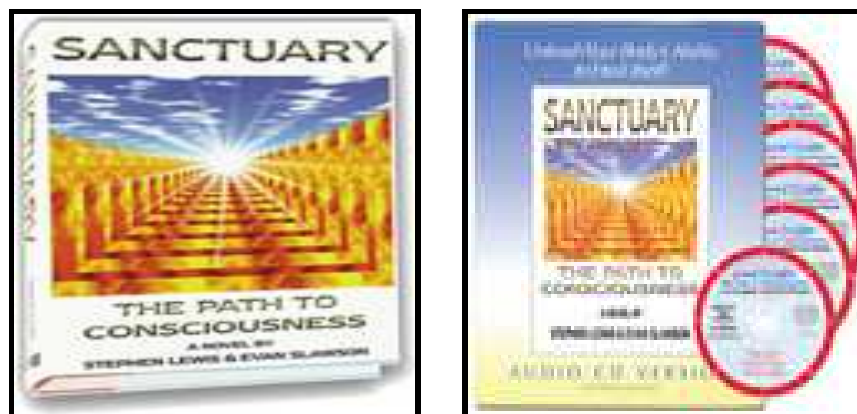

really surprised at how well Dad looked and felt. Dad also saw his eye doctor. He agreed to have Dad stop taking glaucoma drops for a month. After that month the Doctor agreed that Dad can permanently stop taking this medication. This is unusual since the doctor initially said there is no cure for glaucoma; all you can do is control it by putting drops in your eyes for the rest of your life.

Dad continues to do well. He is completely off all medications (five different ones). He's 80 years old. He looks and feels great. His energy is back. He works in the garden from eight in the morning until eight at night. Mom has to yell at him to make him come into the house. He now eats more than the rest of us and has gained weight. So that's the story about my Dad. The rest of my family has had great results, as well. We believe the bottom line is: The AIM Program works. You don't have to understand it...and it works. You don't have to believe it...and it works.
