## Events

### ***Everything is Energy Show Topics for Episode #491 07/23/15:***

- All discussions of energetic imbalances *reference certain frequencies an imbalance may be similar to. A frequency is NOT the actual disease.*
- Newly revealed Hereditary imbalances added to the AIM database.
- Discussed the frequency of Lupus and how it can be both acquired and present hereditarily.
- Stephen does all he can to unmask "unknown" Hereditary imbalances that may still be hidden in one's consciousness; however, these frequencies are highly conscious and are determined to remain undetected. He has the greatest ability to unmask something still hidden once the participant has self-healed all imbalances they had that are in the AIM database ("known" imbalances).
- Discussed how "energetic detox" varies greatly person to person, and referenced the Epilogue: The Evolution of AIM in Sanctuary for additional perspectives on this topic. Some participants feel little to no detox from day one, some seem to feel everything as they self-heal, and some show nothing remaining at this time and feel great. Stephen has high hopes of joining them soon!
- No one has all of these newly revealed frequencies we discuss. Stephen feels that healing imbalances is the "small part" - as long as you are butting horns with something in life, you will create an imbalance. Once you finish that, you are dealing with trying to understand the essence of life.
- From page 192 in Sanctuary...."and you have more life-force available for the real purposes of your existence." "Which are?" "Achieving your highest consciousness and life-force. Minimizing the separation between you and the universe".

### Newly Revealed Hereditary Frequency Update

## As of July 23, 2015

**This week there were three new Hereditary frequencies revealed to us.**

The first new Hereditary frequency 8656 was revealed to us and added to the AIM Program on July 20, 2015. This frequency is believed to function within the energetic orbs of the Bladder, Urinary Tract, Kidneys, Low Back, Hip Joints, Muscles, Joints, Digestive Tract, Stomach, Throat, Sinuses and Heart or wherever it is in you if you have it.

It may manifest itself through the unresolved emotional etiologic frequency of: Insecurity.

The second new Hereditary frequency 8666 was revealed to us and added to the AIM Program on July 20, 2015. This frequency is believed to function within the energetic orbs of the Lymph Glands, Digestive Tract, Stomach, Skin, Bloodstream and Circulation or wherever it is in you if you have it.

It may manifest itself through the unresolved emotional etiologic frequency of: Irritability.

The third new Hereditary frequency 8617 was revealed to us and added to the AIM Program on July 22, 2015. This frequency is believed to function within the energetic orbs of the Lungs, Respiratory System, Digestive Tract, Stomach, Muscles, Joints, Throat, Sinuses and Heart or wherever it is in you if you have it.

It may manifest itself through the unresolved emotional etiologic frequency of: Over Aggressiveness.

**Here is the update on past frequencies that were revealed and added to the AIM Program last week:**

8616 & 8626 We believe have balanced in all those AIM Participants who were clearing them.

8636 & 8646 We believe will balance in all those AIM Participants who are clearing them by the end of this weekend.

Regarding the frequencies that have cleared, we clarify: "We cannot say with certainty or accuracy that they have cleared in all, because we cannot check all. Additionally, some heal more slowly because of underlying energetic weakness, such as the frequency of parasites."

**REMINDER:** Although the frequencies have balanced in those who are positive for them, we may have to allow our physical being to strengthen to notice the positive effects.

*For more information on the latest frequencies you can listen to the Everything is Energy Show every Thursday morning from 9-10 AM (Pacific). (See the listing in [Events](#).)*

### **Olivia from Florida**

When doctors informed me that my daughter, Olivia, had Down Syndrome, I knew that my family would endure

some difficult challenges, but I never wavered in my belief that we would rise to the occasion with our love and resiliency. Despite the worst-case scenario horror stories that I read about in books written about people with Down Syndrome, Olivia is a healthy, active, beautiful child. Because she has been blessed with a loving, doting family and skilled, caring therapists, she rides a bicycle, maneuvers the playground like a skillful gymnast and writes and colors like most typical six-year-olds; however, although Olivia excels in her fine and gross motor skills, her speech and cognitive skills are still very much delayed. When a friend suggested that I put Olivia on the AIM Program, I did not waste any time.

Putting Olivia on the AIM Program was one of the best decisions I made. Within three months, Olivia's articulation began to improve. Instead of one-word utterances, Olivia began stringing three words together. Just recently, she has begun to speak using more sentences. In addition to improved speech, her cognition and focus have also improved. For the first time in her kindergarten class, Olivia earned a "C" on a math assessment, which is quite a leap for a girl who could not identify numbers 6 through 10 in August! Then to my utter surprise, Olivia received an "A" on her oral presentation of Helen Keller. Yes, you read correctly. How does a six-year-old who has significant speech delays get an "A" on an oral presentation? I wholeheartedly believe that so much of Olivia's progress is due to the energetic balancing of the AIM Program.

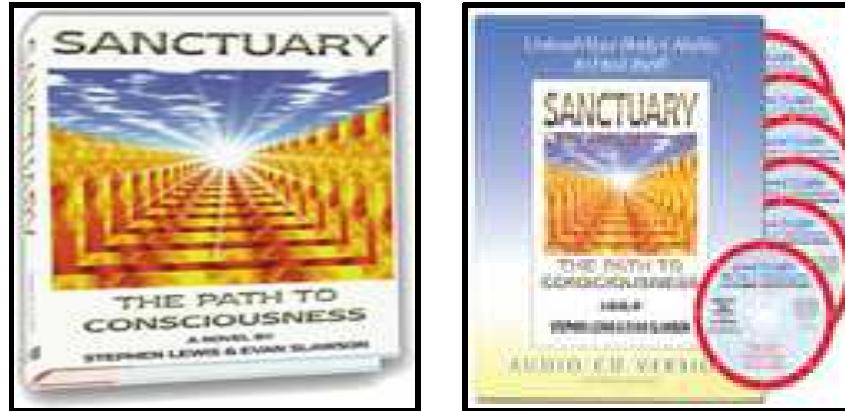

Moreover, because she is more focused, she is able to work more independently, which is a huge boon. The more independent work she can do the more likely it is that she can continue to attend the neighborhood school. Because Olivia has made so much progress, her teacher nominated her for student of the month in her special education class. My parents and I cried as we watched Olivia mount the platform to accept her certificate. Just last year, I lamented that Olivia may never get the awards her typical brother earns.

I am firmly convinced that Olivia would not have made such rapid progress this year with her speech and cognition had it not been for the AIM Program.
